**THE IBM ELECTRIC  
EXECUTIVE TYPEWRITER**

The new IBM Electric Executive Typewriter, completely re-engineered and redesigned, brings to typing the grace and easy readability usually associated with fine printing. Incorporating the IBM spacing principle, which gives each character the amount of space required according to its width, rather than an equal amount of space regardless of width, the Executive Typewriter is available in any one of four specially styled type faces.

All-electric operation, controlled impression, and uniformity of results make the IBM Executive Typewriter ideal for preparing master copy for effective sales letters, bulletins, and booklets, as well as distinctive-looking correspondence.

# OUTSTANDING FEATURES

**IBM SPACING PRINCIPLE** Each character takes the amount of space it requires, determined by width, rather than an equal amount of space regardless of width, as in ordinary typewriter spacing.

Ordinary Spacing	abcdefghijklmnopqrstuvwxyz ABCDEFGHIJKLMNOPQRSTUVWXYZ
------------------	--

IBM Executive Typewriter Spacing	abcdefghijklmnopqrstuvwxyz ABCDEFGHIJKLMNOPQRSTUVWXYZ
-------------------------------------	--

**CARBON PAPER RIBBON** Each impression is made with a fresh deposit of carbon. Use of the carbon paper ribbon assures greater consistency of color and a cleaner, sharper impression than ever before possible.

**WORD EXPANSION** An Automatic Word Expander Lever conveniently located above the keyboard inserts an additional  $1/32$  of an inch between letters for emphasis in headings.
